

**Western Regional Epidemiology Network (WREN)
25th Annual Conference Announcement**

Save the dates: May 17 through May 19, 2007 in Ashland, Oregon

www.WRENConference.org

WREN is made up of Western state and local health department staff on the "front lines" of environmental, occupational, and injury epidemiology, toxicology, exposure assessment, and emergency preparedness. The annual conference serves as a forum to share experiences, present our findings, and discuss our work. The presentations are less formal than at most scientific meetings and offer a greater opportunity to exchange ideas with your counterparts in other agencies.

Call for Abstracts

We invite presentations from health professionals working in federal, state, and local agencies in the Western United States and Canada in the fields of environmental, occupational, and injury epidemiology, toxicology, and exposure assessment. Please send a title and brief description (<300 words) of your proposed talk to abstracts@WRENConference.org. The deadline for submitting proposed talks is March 16, 2007. Talks will be scheduled for 15-20 minutes, followed by 10-15 minute discussion.
